Polydi – Single Player Time Challenge #1

| 1	2	3	4	5	6	7	8	9

Polydi

The goal of this game is to see how fast you can capture each number FIVE times. This game of Polydi is a **TIME** challenge. Set a stop watch, or monitor a clock.

Instruction: After each roll, put a check mark or an "X" or any other mark in one of the Octagon's **below the number you have rolled**. After you check off each space, you have completed the game and you can stop the clock.

If you roll any "**symbol**", that counts as a bonus. You may use this roll to mark off any "number" of your choice. You can NOT save up your bonus rolls until the end. Use the bonus immediately after you roll a symbol.

If your time was good, you should write it down on your score sheet and save it for the future. Maybe you can break your record next time.
